NOTE FOR: Director, NPIC

SUBJECT: Imagery Products Specialist for COMIREX Staff

1. Attached is a short description of an imagery products specialist vacancy we currently have in our Current Requirements Branch within the Consumer Support Center [redacted] I would very much appreciate your nominating one or more of your officers as candidates to fill this position on a rotational basis for two to three years. Although the position is graded at the GS-13 level, my guess is that a competent, motivated individual several grades lower could handle it with proper on-the-job training. I would think that such an assignment would be highly valuable for someone up and coming in the film handling and distribution side of your organization. [redacted]

Imagery Products Specialist

Located in the Current Requirements Branch of the COMIREX Staff at the Community Support Center, this individual is responsible for daily reviewing, coordinating, and validating the Community's requirements for the production and distribution of imagery. This responsibility involves monitoring daily imagery collection operations and acting as the intermediary between the Community Support Center and the production/distribution centers to address any problems in film production/distribution and ensure efficient resource utilization.
